List of Programs

List each program for an initial teaching credential below and indicate whether it is offered at the Undergraduate level (UG), Postgraduate level (PG), or both. (§205(a)(C))

THIS PAGE INCLUDES:

>>> List of Programs

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

• Teacher Preparation Program

List of Programs

Note: This section is preloaded with the list of programs reported in the prior year's IPRC.

CIP Code	Teacher Preparation Programs	UG, PG, or Both	Update
13.121	Early Childhood Education	UG	
13.1202	Elementary Education	UG	
13.1203	Junior High/Intermediate/Middle School Education and Teaching	UG	
13.1	Special Education	UG	
13.1302	Teacher Education - Art	UG	
13.1305	Teacher Education - English/Language Arts	UG	
13.1306	Teacher Education - Foreign Language	UG	
13.1316	Teacher Education - General Science	UG	
13.1311	Teacher Education - Mathematics	UG	
13.1312	Teacher Education - Music	UG	
13.1314	Teacher Education - Physical Education and Coaching	UG	
13.1318	Teacher Education - Social Studies	UG	

Total number of teacher preparation programs:

Program Requirements

Check the elements required for admission (entry) into and completion (exit) from the program. If programs are offered at the undergraduate level and postgraduate level, complete the table for both types of programs. (§205(a)(1)(C)(i))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Full-time equivalent faculty supervising clinical experience
- Adjunct faculty supervising clinical experience
- Cooperating Teachers/PreK-12 Staff Supervising Clinical Experience
- Supervised clinical experience

THIS PAGE INCLUDES:

experience during this academic year

The culminating field experience in all teacher education licensure programs is the senior year internship (student teaching) under the direct supervision of a master teacher in a clinical setting. Teacher candidates spend a full semester in their student teaching experience. Whenever possible, the semester prior to student teaching, students are placed for pre-internship field experiences with the clinical teacher who will supervise their internship during the professional semester. Art Education students complete two placements at two different school levels (elementary, middle, and/or high).

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Enrolled Student
- Program Completer

THIS PAGE INCLUDES:

>> Enrollment and Program Completers

Two or more races	10	4
No Race/Ethnicity Reported	5	4

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2022-23.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

No teachers prepared in academic year 2022-23

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2022-23. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

No Yes

No teachers prepared in academic year 2022-23

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or <u>clear responses already entered</u>).

CIP Code	Academic Major	Number Prepared

SECTION I: PROGRAM INFORMATION

Program Assurances

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

TH	IIS PAGE INCLUDES:
>>	Program Assurances

Program Assurances
Note: This section is preloaded from the prior year's IPRC.
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to tea based on past hiring and recruitment trends.
• Yes No
Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. Yes No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects. Yes No Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities. Yes No
Prospective general education teachers are prepared to provide instruction to limited English proficient students. Yes No
Prospective general education teachers are prepared to provide instruction to students from low-income families. Yes No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable. Yes No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Prospective teachers are required to take introductory level courses that 1) address the unique learning needs of students with disabilities, students with limited English proficiency, and learners at risk of academic difficulties, and 2) provide instructional strategies to address these needs. Field experience opportunities and student teaching assignments provide prospective students with experience in various areas (urban, suburban, and rural). Memorandums of Understanding (MOUs) are reviewed annually and establish collaboration between the UNCP Educator Preparation Program and public school units (PSUs) to ensure access to field instruction. Prospective teachers engage with diverse students, including children with disabilities, limited English proficient students, and low-income families. In addition, we offer a seminar every semester for our interns that focuses on the needs of limited English proficient students. More information about limited English proficient students is included in the SED 3310 core course (Introduction to

the Exceptional Child), which is taken by all education majors, The needs of students from low-income families are addressed in a similarly required methods class in each preparation program. Furthermore, all students take EDN 2100 (Introduction to Education) and complete a field experience in a low-performing school.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2022-23)
- >> Review Current Year's Goal (2023-24)
- >> Set Next Year's Goal (2024-25)

Report Progress on Last Year's Goal (2022-23)

1. Did your program prepare teachers in mathematics in 2022-23?

If no, leave remaining questions for 2022-23 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

The Educator Preparation Program at UNCP will prepare at least 2 teachers in mathematics.

- 3. Did your program meet the goal?
 - Yes

No

4. Description of strategies used to achieve goal, if applicable:

Faculty continued to meet during advising week and major meetings. Instructors continued to be encouraging in our method courses, sharing personal testimonies about the love of teaching and the life-changing responsibility the teaching profession has on our future.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Plan to meet with local math teachers within surrounding counties during Teacher Appreciation Week to host an online "Why are you a Teacher" webinar to allow our students to engage in discourse with current teachers...to hear the best, worst, challenging, rewarding, etc... and also start to build connections and strengthen relationships between our students and their future peers.

Review Current Year's Goal (2023-24)
7. Is your program preparing teachers in mathematics in 2023-24? If no, leave the next question blank. Yes No
8. Describe your goal. The Educator Preparation Program at UNCP will prepare at least 1 teacher in mathematics.
Set Next Year's Goal (2024-25)
9. Will your program prepare teachers in mathematics in 2024-25? If no, leave the next question blank. Yes No

6. Provide any additional comments, exceptions and explanations below:

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Note: Last year's goal and the current year's goal are preloaded from the prior year's IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Quantifiable Goals

THIS PAGE INCLUDES:

- >> Report Progress on Last Year's Goal (2022-23)
- >> Review Current Year's Goal (2023-24)
- >> Set Next Year's Goal (2024-25)

Report Progress on Last Year's Goal (2022-23)

1. Did your program prepare teachers in science in 2022-23?

If no, leave remaining questions for 2022-23 blank (or <u>clear responses already entered</u>).

Yes

No

2. Describe your goal.

The Educator Preparation Program at UNCP will prepare at least 1 teacher of science.

- 3. Did your program meet the goal?
 - Yes
 - No
- 4. Description of strategies used to achieve goal, if applicable:

To increase the number of successful science teacher candidates, the program coordinator communicates with the School of Education's recruitment program, corresponds with potential students, and meets with transfer students to advise them and help them register for the proper classes. Often transfer students arrive with 60 hours. This number of hours sometimes presents difficulties for perspective science education majors. Every undergraduate science education program requires 12 hours of professional education, 57 hours of essential standards (science courses, science labs and mathematics), and 18 hours of content pedagogy. For each program, these 86 hours are prescribed and present no room for substitution. Transfer students can transfer in up to 60 hours. The Director of Teaching Fellows recruits candidates for the STEM pathways, including Science Education.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

	UNCP's Educator Preparation Program recommends successful high science teacher candidates for the comprehensive science licensee, middle high
	school science candidates are recommended for the middle school science license. Recommendation for both licenses requires these students to pass
	the appropriate Praxis Tests. High school science teachers must pass the Praxis® General Science (5436) test (Praxis II). This test covers the following topics: Nature and Impact of Science and Engineering; Physical Science (Physics and Chemistry); Life Science; Earth and Space Science. Middle grades science must pass the Praxis Middle School Science (5442) test. This test covers the following topics: Nature of Science and Impact of Science
	and Engineering; Physical Science (Physics and Chemistry); Life Science; Earth and Space Science.
6.	Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2023-24)

7. Is your program preparing teachers in science in 2023-24? If no, leave the next question blank.

8. Describe your goal.

The Educator Preparation Program at UNCP will prepare at least 1 teacher of science.

Set Next Year's Goal (2024-25)

9. Will your program prepare teachers in science in 2024-25? If no, leave the next question blank.

10. Describe your goal.

The Educator Preparation Program at UNCP will prepare at least 1 teacher of science.

Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

(§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

8. Describe your goal.

Set Next Year's Goal (2024-25)

9. Will your program prepare teachers in instruction of limited English proficient students in 2024-25? If no, leave the next question blank.

10. Describe your goal.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Summary Pass Rates

Group	Number taking tests	Number passing tests	Pass rate (%)
All program completers, 2022-23	85	53	62
All program completers, 2021-22	72	48	67
All program completers, 2020-21	61	42	69

SECTION IV: LOW-PERFORMING

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. $(\S205(a)(1)(D), \S205(a)(1)(E))$

Note: This section is preloaded from the prior year's IPRC.

TH	IS PAGE INCLUDES:	
>>	Low-Performing	

Low-Pe	erform	ing
--------	--------	-----

1. IS y	our teacher preparation program currently approved or accredited?
	Yes No
	es, please specify the organization(s) that approved or accredited your program:
	State CAEP
	AAQEP Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

Yes

No

SECTION V: USE OF TECHNOLOGY

Use of Technology

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

	DAGE		IDEO
HIS	PAGE I	INCL	UDES:

>> Use of Technology

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
 - Ye

No

- b. use technology effectively to collect data to improve teaching and learning
 - Ye

No

- c. use technology effectively to manage data to improve teaching and learning
 - Yes

No

- d. use technology effectively to analyze data to improve teaching and learning
 - Yes

No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Emphasis on the use of technology to enhance teaching and learning remains a focus of the Educator Preparation Program at UNCP. Teacher candidates incorporated word processing, spreadsheets, interactive Internet tools, web 2.0 tools, cloud-based applications, Microsoft Office, Smartboards and Smart Notebook applications as well as instructional apps for classroom use within assignments in method courses. Special Education candidates used the above mentioned instructional technologies as well as evidence-based strategies and assistive technology devices to enhance students with disabilities educational experiences in K-12 settings. All candidates were prepared to engage in positive digital citizenship activities, lead all students to become active participants in setting educational goals, monitor learning and assess student progress through digital tools, and design technology-enriched learning experiences. Culminating experiences in method courses and student teaching encompassed the use of technology demonstrated in effective lesson plans. The edTPA assessment was used to measure and support subject-specific and content knowledge in program completers, including the integration of technology to collect, manage and analyze data as well as the application of the principles of universal design for learning. For the purpose of enhancing online course delivery and student interaction, faculty have incorporated WebEx and Zoom web conferencing systems to transform impersonal communication and reflect upon critical assignments in each program area. Candidates also used Canvas as a learning management system. Specific program areas use more specialized software, such as Geometer's Sketchpad in secondary math and Finale in K-12 music. Some programs incorporated the use of GoReact, an interactive cloud-based platform for feedback, grading, and critiquing of candidate video assignments.

SECTION VI: TEACHER TRAINING

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

HIS	PAG	F IN	CL U	DES:

>> Teacher Training

Teacher Training

- 1. Provide a description of the activities that prepare general education teachers to:
 - a. Teach students with disabilities effectively

All prospective teacher candidates are required to take an introductory level course, SED 3310-Introduction to the Exceptional Child, designed to introduce the foundations of special education: the concept, purposes and responsibilities, laws and policies, principles and practices for meeting the educational needs of children considered at-risk or identified with disabilities. The course provides a study of the needs, characteristics, and categories of exceptional children, as well as the important role parents and families play in the educational planning and decision-making process. Policies, laws, and procedures are also discussed to ensure students understand how to effectively and legally educate students within these identified groups. Close programmatic attention is given to providing candidates with opportunities to examine and participate in the various stages of development of the Individualized Education Plan (IEP), from pre-referral to receipt of specialized services. Moreover, each course provides students with a field experience/service learning component in which course material can be applied through personal reflections and group discussions. Furthermore, the edTPA assessment was used to measure and support subject-specific and content knowledge in program completers, including the application of the principles of universal design for learning and possible instructional accommodations for students with disabilities in the general classroom.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

SED 3310, Introduction to the Exceptional Child, serves as an initial experience to all prospective teacher candidates as members of IEP teams. Within the course, candidates engage in active discussion of the roles of general and special educators in providing exceptional learners an individualized education program as defined by IDEA of 2004. One main assignment required within the course is the completion of an IEP based on a case study using the forms adopted by the NC Department of Public Instruction. Other courses, such as SED-3340-Strategies for Instruction of Students with Mild to Moderate Disabilities, provide teacher candidates who select Special Education as a professional concentration area the opportunity to design instructional lessons including accommodations and modifications for students with special needs as indicated in the IEP. Furthermore, candidates are encouraged to participate in IEP meetings with supervising clinical teachers during field experience and the internship semesters. Elementary Education and Special Education candidates matriculate through SED-4330: Diagnosing and Remediating Mathematics Problems. This course of study is designed for teacher candidates to have the knowledge and skills to use systematic, explicit, multi-sensory methods to diagnose and remediate mathematics skills. Candidates will also learn how to understand and provide the essential components of math instruction.

c. Effectively teach students who are limited English proficient.

All prospective teacher candidates are required to take SED 3310, Introduction to the Exceptional Child, which provides an active discussion of the characteristics and educational needs of students identified as limited English proficient (LEP) and culturally diverse populations. Furthermore, method courses across the program incorporate specific instructional strategies focused on advancing the academic and language achievement of limited English proficient students across grade levels and content areas. The edTPA assessment was used to measure and support subject-specific and content knowledge in program completers, including the application of the principles of universal design for learning and possible instructional accommodations for students who are Limited English Proficient.

- 2. Does your program prepare special education teachers?
 - Yes No

If yes, provide a description of the activities that prepare special education teachers to:

a. Teach students with disabilities effectively

Prospective special educators are provided with a rigorous program focused on current and relevant evidence-based practices and strategies needed in order to promote student success for all students with mild to moderate disabilities. A strong emphasis is placed on the prospective special education teacher learning skills to effectively collaborate with parents and other professionals as well as to identify and locate local and community resources. Through the various course material and assignments, prospective special educators are provided with the following educational opportunities: 1) an in-depth examination and application of the characteristics of and programming needs for students with disabilities and limited English proficiency; 2) the review and application of the NC Essential Standards objectives in the areas of mathematics, reading, and writing; 3) the incorporation of the North Carolina School Improvement Project- Foundations of Reading and Math Foundation into required methods courses and 4) the creation of lesson plans that incorporate various assistive technology devices, assessment tools and their results, and adaptive instructional strategies. Hands on experience in developing Individualized Education Plans (IEP), Functional Behavioral Assessment (FBA) as well as a Behavioral Intervention Plan (BIP) are provided with direct guidance from Special Education faculty. Moreover, candidates are provided with classroom-based opportunities (field experiences) in which course material can be applied in a meaningful and practical manner. Such classroom-based opportunities are closely monitored and reviewed by the Special Education faculty to ensure that the prospective educator is gaining appropriate and accurate information regarding how to effectively teach students with disabilities and those with limited English proficiency. Furthermore, the edTPA assessment was used to measure and support subject-specific and content knowledge in program completers, including the application of the principles of

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

SED 3310, Introduction to the Exceptional Child, serves as an initial experience to prospective special educators as members of IEP teams. Within the course, candidates engage in active discussion of the roles of general and special educators in providing exceptional learners an individualized education program as defined by IDEA of 2004. One main assignment required within the course is the completion of an IEP based on a case study using the forms adopted by the NC Department of Public Instruction. Well designed IEPs are discussed across method courses with specific emphasis in the appropriate use of accommodations and modifications. For example, SED-3340-Strategies for Instruction of Students with Mild to Moderate Disabilities, provides teacher candidates the opportunity to design instructional lessons including accommodations and modifications for students with special needs as indicated in the IEP. Furthermore, candidates are encouraged to participate in IEP meetings with supervising clinical teachers during field experience and the internship semesters. Elementary Education and Special Education candidates matriculate through SED-4330: Diagnosing and Remediating Mathematics Problems. This course of study is designed for teacher candidates to have the knowledge and skills to use systematic, explicit, multi-sensory methods to diagnose and remediate mathematics skills. Candidates will also learn how to understand and provide the essential components of math instruction.

c. Effectively teach students who are limited English proficient.

Candidates are required to take SED 3310, Introduction to the Exceptional Child, which requires active discussion of the characteristics and educational needs of students identified as limited English proficient and culturally diverse populations. Furthermore, method courses across the program incorporate specific instructional strategies focused on advancing the academic and language achievement of limited English proficient (LEP) students across K-12 grade levels and content areas.
